

17.05.120: CLEAR VIEW OF INTERSECTING STREETS:

- A. A clear view at the intersection of two (2) streets shall be maintained within a triangular area formed by a diagonal line connecting lines at the edge of the right of way forty feet (40') from the projected intersection of such lines. To maintain this clear view, the following standards shall apply:
1. No solid type fence or other visual obstructions two feet (2') in height from the street elevation (measured from the edge of the right of way) shall be allowed;
 2. Open type fences or other obstructions, such as chainlink or barbwire, may be allowed to a height of six feet (6'), though they must be maintained to permit clear and unobstructed view; and
 3. Pruning is required for trees with an overhang less than seven feet (7') above the street elevation (measured for the edge of the right of way) in the clear view area.
- B. A clear view area shall also be maintained at the intersection of a street and a private driveway within a triangular area formed by a diagonal line connecting the right of way line of the street and the line of the edge of the private driveway at points twenty feet (20') from the projected intersection of such lines. In order to maintain this clear view, the standards outlined in subsection A of this section shall apply. (Ord. 2004-10, 8-10-2004)
